Hand Towels

If hand hygiene is important to you then choose our paper Hand Towels.

They reduce bacteria on the hands

by 77 %,

compared to warm air dryers that increase bacteria **by 254 %** and jet air dryers **by 42 %**.

University of Westminster study, February 2009.
Mean percentage figures used to show change in numbers of bacteria.

Towels are manufactured using AIRFLEX® technology.

- Superior absorbency and strength means fewer towels are needed and less waste is produced.
- Soft, textile-like feel and appearance.
- Do not break up when wet.
- Our AIRFLEX® Fabric consumes 17% less fibre at source than standard fabric.

HIGHLY ABSORBENT FABRIC

SAVINGS!

Or - why use rolled paper hand towels? Here's an example of the change at an industrial customer

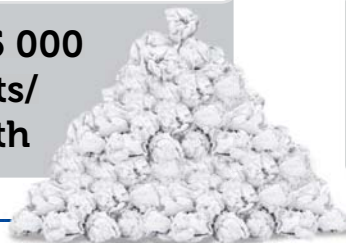

20.1 palets

FOLDED HAND TOWELS

- 563 cases/month
- 11 260 packs/month

2 815 000 sheets/month

5.55 palets

ROLLED HAND TOWELS

- 200 cases/month
- 1 200 rolls/month

1 257 600 sheets/month

ROLLED HAND TOWELS:

- High capacity systems reduce the need for refilling.
- Rolled hand towels are compressed, reducing storage space required and packaging waste.
- **More dry hands.**
- KLEENEX® Hand Towels provide the quality and care you would expect from a recognised brand.
- SCOTT® Hand Towels are reliable and cost effective.
- Suitable for direct contact with food.

DISPENSERS WITH STUB-ROLL ADVANTAGE

What does this mean for you?

No need to wait for the roll to run out and no need to return to change it. The low roll is moved and a new roll is inserted.

Once the low roll is used up, it automatically switches to the new roll.
