	Roll	19.80	x	20.00	Height x Diameter(cm)
	Sheet	354.00	x	19.80	Length (m) x Width(cm)

Product Description

Scott® hand towels are softer, more absorbent and Stronger than conventional towels, providing consistent quality at an affordable price. This product is also supplied in a compressed pack, delivering up to 18% more towels per case. These hand towels are certified for food contact to the standard of BFR XXXVI, considered to be the benchmark for food legislation in Europe and are ideal for use in busy offices, healthcare facilities and food contact areas. The high capacity design means you reduce refill requirements and frustrating product run-outs which helps to increase time efficiency and user satisfaction. The Airflex* technology ensures that each towel is Ultra absorbent, especially when compared to conventional paper towels. Airflex* fabric remains Strong when wet, preventing it from becoming soggy and ripping, whilst retaining its soft and comforting texture. Scott® hand towels are made from 65% recycled fibre and carry the European Ecolabel; your guarantee that they are manufactured responsibly at every step of the process. Individual sheet size 19.8cm (W). Compatible with AQUARIUS* Rolled Hand Towel Dispenser (product code 6959) and Kimberly-Clark Professional* Electronic Rolled Hand Towel Dispensers (product codes 8976 and 9960). 6 x 354m blue, 1 ply rolls (2,124m total)

Solution

Healthier Workplace

The HEALTHY WORKPLACE PROJECT* is a comprehensive office hygiene programme which helps engage employees and reduce sickness.

Standard R+E

Food Contact Regulations

This product is suitable for food contact and complies with Regulation (EC) No. 1935/2004. Furthermore, nitrile rubber gloves comply with Regulation (EC) No. 10/2011 and German Recommendation, BfR No. XXI, and paper products comply with German Recommendation, BfR No. XXXVI.

AIRFLEX* Technology

AIRFLEX*

Compression

KIMBERLY-CLARK PROFESSIONAL* is using new air compression technology to fit up to 18% more paper hand towels into each case, resulting in a range of commercial and environmental benefits. The technology is being applied across a range of KLEENEX and SCOTT Hand Towels manufactured using AIRFLEX* Fabric. Compressed AIRFLEX* Fabric towels will continue to offer superior absorbency and strength and outstanding levels of hygiene and comfort. Along with the following additional benefits: Environmental, it means more towels per truck so fewer trucks on the road. Packaging waste is also reduced. End-users will now need to use less warehouse storage space for the same amount of hand towels, while more towels in each sleeve will mean fewer refills are required.

Trade

ISO 14001

ISO 14001 is an international environmental standard. Designed to help organisations ensure that operations comply with environmental laws, and; major environmental risks and liabilities are properly identified, minimised and managed.

ISO 9001

This gives the requirements for quality management systems, is now firmly established as the globally implemented standard for providing assurance about the ability to satisfy quality requirements and to enhance customer satisfaction in supplier-customer relationships.

Regulation (EC) No 66/2010 of the European Parliament

The European Ecolabel scheme encourages businesses to market products and services that are kinder to the environment. Only products that meet strict environmental standards are entitled to use the Ecolabel accreditation.
