THE ECOLOGICAL COST-EFFICIENT RANGE.

**Extraordinary
absorption
capacity**

**High resistance
even in humid
condition**

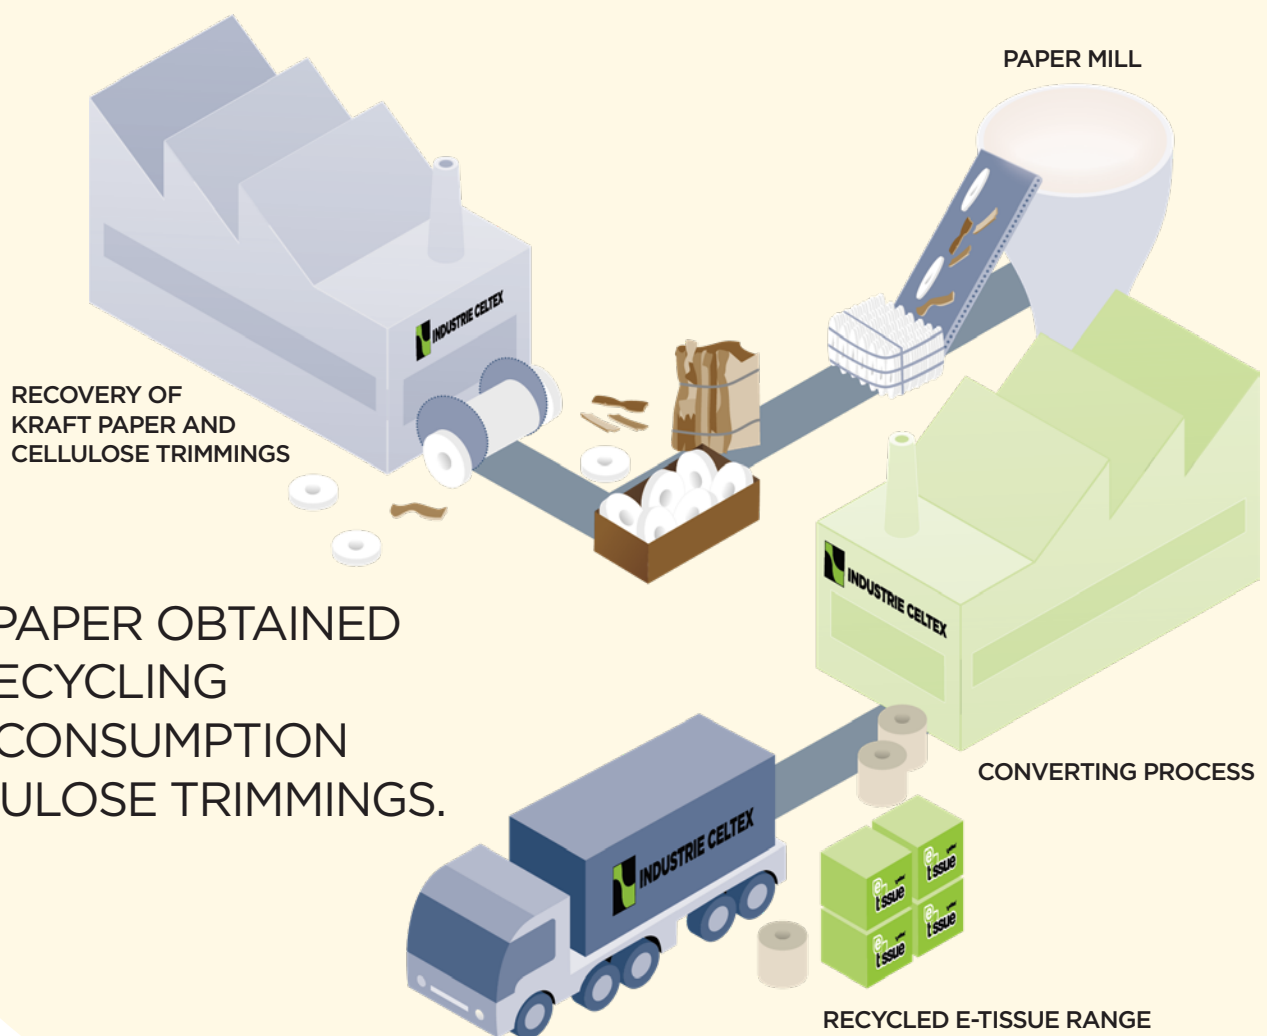

**Ecological
and cost-efficient**

E-Tissue improves its range with new references, becoming a **truly complete line**, able to satisfy **every need of the professional market**.

Improved wet and dry properties, for a more competitive product.

E-Tissue is **the perfect mix between resistance, absorbency, pleasantness to the touch**.

THE PAPER OBTAINED
BY RECYCLING
PRE-CONSUMPTION
CELLULOSE TRIMMINGS.

E-Tissue is the **recycled paper**, produced by an exclusive manufacturing process able to reuse Kraft paper mixed to the fibres of pure cellulose converting trimmings, never used before.

A unique paper characterized by a delicate sand tone deriving from the **natural colour of Kraft paper**, which also replicates the strength and resistance of the raw material which it is made of.

As ecologically-friendly as you can get, E-Tissue contains no chemical additives, bleach or whiteners that can cause harm to humankind and the environment.

**Pleasant to smell,
even when wet**

**Gentle to
the touch**

**Ideal for any
work area**
