Solution

eltex®

**DISSOLVES
IN 9 SECONDS**

Flutech® is the preventive choice for clogging problems.

The exclusive **technology**, patented by Industrie Celtex, allows **all pure cellulose toilet papers to dissolve in water**, with the help of the mechanical movement of the drain, in **just 9 seconds***.

FLUTECH® PAPER RESPECTS THE ENVIRONMENT

The raw material comes from forests certified for sustainable management, therefore with minimal environmental impact.

Environmental performance is measured throughout the product life cycle. Reduced energy consumption, limited emissions, avoidance of hazardous substances.

Flutech® is a natural choice, which avoids the use of chemicals, harmful to humans and the environment.

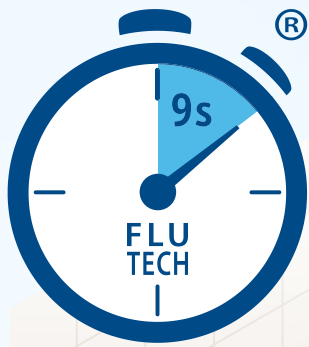

Natural, ecological and certified solution.

Flutech® avoids unpleasant clogging of the toilet, **annoying disruptions** and exorbitant extraordinary **maintenance costs**.

Ideal in lagoon areas, mountain basins, historic centers and coastal areas. Perfect wherever there are winding pipes or with little slope, where there are septic tanks or storage tanks, or where attention to drains is primary to ensure **hygiene and efficiency**, such as in premium or high-traffic contexts

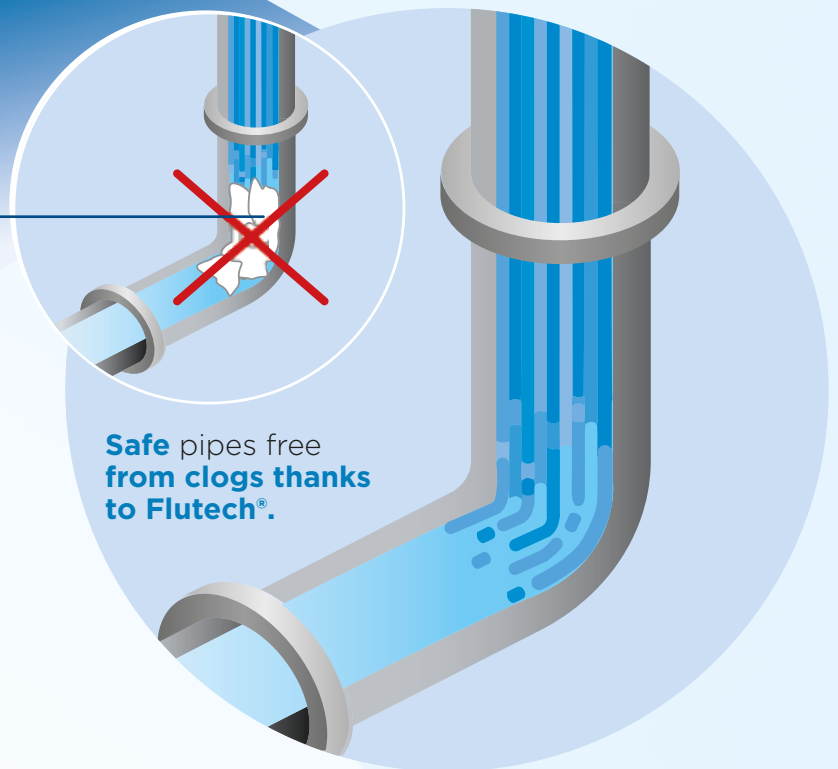

*Tests carried out by an accredited laboratory according to the Standard "AFNOR Dissolving: NF Q 34-020:1998".

For a bathroom without clogging, toilet paper and Hydrosol towels.

Even if accidentally thrown into the toilet, Hydrosol towels dissolve in **9 seconds** in contact with water and the mechanical movement of the drain.

Celtex toilet paper made of pure cellulose is dissolved in **9 seconds**.

Safe pipes free from clogs thanks to Flutech®.
