Save Plus originates from a **sustainable circular** production process, as it recovers fibres of pure cellulose, coming from the paper mill and the converting lines. This special feature allows **Save Plus** product range to have **a degree of whiteness of 75%**, achieved **without added whitening agents** or **optical bleachers***. **Guaranteed recycled**, in full respect of man and nature.

Great cost-effectiveness ratio

Non-invasive smell, even when wet

Toilet paper dissolves in water within 15 seconds once flushed**

In line with the EU GPP which aims to encourage green procurement by public administrations, thus reducing environmental impact***

CERTIFIED AFFORDABILITY

** No bleaching agents are intentionally added during our production process.

** Flushability tests carried out as per Regulation AFNOR: NF Q 34-020:1998, in an accredited laboratory.

*** In line with the European Green Public Procurement (GPP), which aims to define requirements to encourage green procurement by public administrations, thus reducing their environmental impact. Compliant with the Minimum Environmental Criteria, mandatory in Italy for cleaning services for public and healthcare environments.
